YOU ARE SAFE HERE

Kahf Enterprise

Facing any one of these?

- Students gaming and scrolling in lessons
- Staff one click from harmful content
- School devices going home unprotected

All you need is one console to manage every device on campus and at home"

Available on

Android | Windows | macOS | iOS coming soon

WHAT YOU GET

How this console works for you

DNS-LEVEL FILTERING

Block adult content, gambling and phishing at the device level, in every browser.

APP & WEBSITE RULES

Set block and allow lists for apps and sites, plus keyword filters for content.

SOCIAL FEEDS & TIME LIMITS

Turn off Shorts, Reels and TikTok feeds. Set daily time budgets for sites and apps.

PER-FLEET POLICIES

Give each group of devices, such as a class or a department, its own policy.

PER-DEVICE EXCEPTIONS

Apply a device-level override without changing the wider fleet settings.

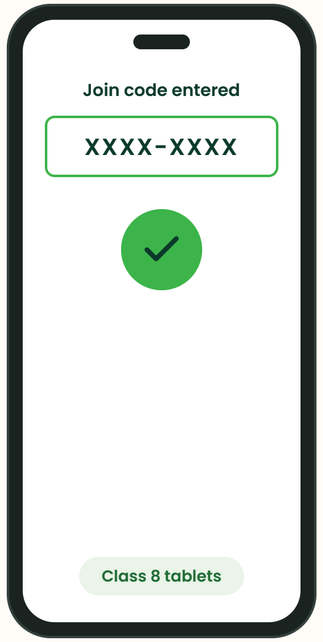

ADMIN SCOPE

Assign super admin, branch admin and viewer roles, each with its own level of control.

HOW IT WORKS

Structure your campus instantly

- Organisation
  - Branch
    - Fleet
      - Policy

Type a code. Done.

A new device joins its fleet and arrives already carrying its policy.

No new hardware.
No network changes changes needed.

ON CAMPUS AND AT HOME

The policy travels with the device

KAHF GUARD ENTERPRISE
One console. One policy, pushed live.

ON CAMPUS	AT HOME	ON THE MOVE
Classroom	Home Wi-Fi	Mobile data
Windows desktop	**macOS** laptop	**Android** phone
Android tablet	**Android** phone	**Android** tablet
macOS MacBook	**iOS** (coming soon)	**iOS** (coming soon)

Accountability on record

Every policy change, and every refused action, is logged by administrator name.

Policy update	Main Campus admin	Success
Policy assign	Girls' Campus admin	Refused
